

Hard drive

If you wish you can add a virtual hard drive to the new machine. You can either create a new hard drive file or select one from the list or from another location using the folder icon.

If you need a more complex storage set-up you can skip this step and make the changes to the machine settings once the machine is created.

The recommended size of the hard drive is 8.00 GB.

- Do not add a virtual hard drive
- Create a virtual hard drive now
- Use an existing virtual hard drive file

Windows7 64.vdi (Normal, 80.00 GB)
